

## Circulation fan

# TK500

| PARAMETER                         | VALUE       |
|-----------------------------------|-------------|
| Dimensions [mm]                   | 500 x 315   |
| Fan diameter [mm]                 | 500         |
| Propeller diameter [mm]           | 450         |
| Propeller quantity [psc.]         | 5           |
| Weight [kg]                       | 13          |
| Air flow [m <sup>3</sup> /h]      | 5300 (0 Pa) |
| Air flow max. [m <sup>3</sup> /h] | 6000 (0 Pa) |
| Motor rotational speed [RPM]      | 1400        |
| Frequency [Hz]                    | 50          |
| Power [kW]                        | 0.37        |
| Voltage [V]                       | 220         |
| Rated current [A]                 | 1           |
